Prompt :-

create a JSON prompt for video generation with a mother song tamil using SCALE framework (Subject, Composition, Action, Location and Esthetics)

```
{
 "project": "Tamil Mother Song Visual Sequence",
 "aspect_ratio": "16:9",
 "resolution": "4K",
 "frame_rate": "24fps",
 "framework": "SCALE",
 "prompt_details": {
  "subject": {
   "primary": "A South Indian Tamil mother in her early 40s, wearing an authentic mustard-yellow cotton saree with a subtle red border, hair tied in a loose traditional plait with fresh jasmine flowers (malli poo), small round red bindi, and delicate gold thali chain.",
   "secondary": "Her 7-year-old child wearing a simple cotton kurta, resting peacefully with an expression of complete safety and affection."
  },
  "composition": {
   "framing": "Intimate medium close-up transitioning smoothly to a wide profile.",
   "camera_angle": "Eye-level with a soft, gentle Dutch tilt that straightens as the shot settles.",
   "camera_movement": "Slow cinematic push-in (dolly-in) combined with a subtle orbit, maintaining shallow depth of field (f/1.8) focusing sharply on the mother's eyes and gentle smile while blurring the background softly into warm bokeh."
  },
```

"action": {

"character_motion": "The mother gently caresses the child's hair with one hand, rhythmically patting the child to sleep while softly humming along to a soothing Tamil lullaby (thaalaattu). The child closes their eyes and smiles faintly, nestled against her shoulder.",

"environmental_motion": "A soft evening breeze lightly flutters the edge of her saree pallu and gently rustles the nearby temple-tree leaves visible through the open doorway."

},

"location": {

"setting": "The verandah (thinnai) of a traditional Chettinad-style heritage home in rural Tamil Nadu.",
